

# White Paper: Doctor Evil Crypto - Revolutionizing the Meme Economy

Version 1.0

Date: July 25, 2023

## 1. Executive Summary

Doctor Evil is a revolutionary meme token that aims to redefine the way we interact with decentralized ecosystems. Our mission is to unlock the user's Evil potential, offering an exciting journey through the dark side of decentralized finance. This paper outlines the tokenomics, roadmap, and unique features of Doctor Evil.

## 2. Introduction

We combine mischievous fun with innovative technology to create a unique and entertaining cryptocurrency experience. We are not just another project; we are the ultimate hack to keep the competition in DeFi on their toes. As we disrupt the meme economy, we inject a touch of wickedness into the decentralized landscape!

## 3. Tokenomics

The tokenomics of Doctor Evil are designed to maintain balance and ensure sustainable growth:

- Max Supply: 1 Billion Tokens
- Uniswap Liquidity: 93.1% (Locked for 6 months on unicrypt)
- CEX Listing: 6.9% (stored in the multisig 3/5 gnosis wallet)
- Staking \$EVIL Rewards: 2.6% (stored in the multisig 3/5 gnosis wallet)

Tax Structure:

- 5% buy tax / 10% sell tax - first 48 hours
- 5% buy tax / 5% sell tax - post 48 hours
- 2.5% buy tax / 5% sell tax - post 7 days

The maximum tax% in the contract is 10% before 48 hours and 5% after 48 hours. The tax can be switched off at any time. The taxes are stored in the multisig gnosis wallet.

## 4. Roadmap

The Path to Infamy, our roadmap, outlines the future developments planned for Doctor Evil:

- **Super rare 1/1 genesis mint of 1,000 DOCTOR EVIL NFTs:** Holders with a minimum of 2.5 million tokens will have the exclusive opportunity to acquire the limited-edition DOCTOR EVIL NFTs.

- **AR Evil Game Play:** An augmented reality game, where you can unleash your powers and conquer virtual realms filled with challenges and rewards.
- **Single Sided Staking for Loyal Holders:** Stake your evil tokens and earn passive rewards for your loyalty. The partner platform for single-sided staking will be announced post-launch.
- **Lowest Guaranteed Swap Fees from our EVIL DEX:** Trade your evil tokens with the lowest swap fees on our very own decentralized exchange (EVIL DEX), providing seamless and cost-effective transactions.
- **Lowest Optimized EVIL OTC Desk:** A platform for private trades with our optimized over-the-counter (OTC) desk, offering low rates and secure transactions for your evil tokens.

## 5. Conclusion

Doctor Evil Crypto is more than just a token; it is a fun and interactive way to engage with decentralized finance. By embracing a uniquely playful approach, Doctor Evil offers a refreshing and exciting addition to the cryptocurrency landscape.

Remember, this is just the beginning. There is much more to come as we work to build and expand on the Doctor Evil platform. So, embrace your inner villain, conquer the crypto realm, and let's make finance fun again with Doctor Evil Crypto!
